Of bullying incidents reported to adults, adults only took action 65% of the time.

Adult spoke to school but the school failed to act  
22.2%

Adult did nothing  
34.3%

Other  
19.2%

Adult took immediate action  
24.2%

"Not only did the school do nothing, but there was a lot of victim blaming...from the administration and teachers"

2021 Asian American Bullying Report

of victims were AAPI youth (under 18).

of the incidents involving AAPI Youth involved being bullied by adults.

of the incidents involved youth-on-youth bullying.

- Online hate against Asian Americans has increased by 900% since the coronavirus outbreak began.
- As a result, 70% of Asian Americans experienced or witnessed an increase in cyberbullying in 2020.

- Data on nearly 750 Asian American middle and high school students from the National Longitudinal Study of Adolescent Health (1994-95 cohort) suggest that 17% reported being violently victimized (e.g., had a gun/knife pulled on her/him, stabbed, cut, or jumped) at least once in the past year.
